

## MACLAY CREW DONATIONS GUIDELINES

Donations of services, goods, or monies are always welcomed by Maclay Crew Boosters' Organization. They will be used to provide the maximum possible benefits for the entire crew.

General guidelines are applicable and should be used to create a fair and equitable distribution of the donations. Goods and services will be used so as to provide the maximum possible benefit to the entire crew and may be directed by the Board. Monies donated will be used in a manner which will also benefit the entire team, used for a tangible item(s), and be associated the donor's name to serve as lasting recognition of that donation. For example, equipment, shells, oars, etc. to be named as directed by the donor.

If the donor has a special request as to how the goods, services, or monies are to be used, the Board of Directors will strive to make reasonable accommodation in order to meet the donor's directions for use. However, the Board reserves the right to consider fiscal strength and special needs the crew may have.
